Experience

Web Developer | Devmountain | Lehi, UT Aug - Apr 2023

Groove Burner (Capstone) [Demo Video](#) [Github Repo](#)

- Developed a web application called Groove Burner using React, Node.js, Express, and Spotify API
- Utilized Jest to test reusable components to ensure optimal user experience
- Created an interface that allows users to search for songs and create a playlist by making a GET and POST request to the Spotify API to receive a response with the searched song
- Applied agile methodologies to work in sprints until project completion
- Implemented data protection methods such as Bcrypt and demonstrated data storage solutions using SQL
- Designed Wireframes using figma

Sound Designer | ZAP Zorn Composer Tools | (Remote) Newbury Park, CA Jul 2022 - Present

- Created sound effects and music for various projects
- Collaborated with clients to understand their needs and ensure their vision was realized in the final product
- Utilized industry-standard software, such as Logic, Ableton, and Pro Tools
- Worked in a fast-paced, deadline-driven environment to ensure projects were completed on time and with high quality

Web Designer (contract) | A Plus Services | (Remote) Manhattan Beach, CA 2022

- Developed and maintained the company's website using HTML and CSS
- Collaborated with cross-functional teams to design and implement new features for the website
- Ensured the website was optimized for search engines and provided a user-friendly experience for client
